Dear Ms. Cope:

Following our conversation on January 26, 1987, I am forwarding a copy of "Guidance on Feasibility Studies Under CERCLA". With the passing of SARA many changes have taken place with respect to Feasibility Studies. No guidance under SARA has been printed yet, but it is currently under revision. The current guidance should serve your purposes until new information is available. If you have any questions please contact me at FTS 729-9712.

Sincerely,

/s/
